BLUETIX ENGINEERING

مراحل عمل المشروع

BLUETIX
ENGINEERING

Innovating Design. Building Futures

- دراسة المساحة الحالية وإعادة توزيعها بشكل ذكي يحقق أفضل استثمار لكل متر ويخدم أسلوب حياتك.
- تصميم الديكور الداخلي وتحويل المساحات إلى فراغات متناسقة تجمع بين الجمال والوظيفة، مع عرض واضح قبل التصميم وبعده.
- إعداد المخططات التنفيذية التفصيلية لضمان تنفيذ التصميم بدقة على أرض الواقع، دون اجتهادات أو مفاجآت أثناء التنفيذ

NOTES:

- 1- CONTRACTOR TO CHECK AND CO-ORDINATE ALL DRAWINGS BEFORE CONSTRUCTION.
- 2- ALL DRAWING'S DIMENSION ARE IN CENTIMETERS TO BE VERIFIED ON SITE AND APPROVED BY THE ARCHITECT.
- 3- FOR THE STRUCTURAL ELEMENTS REFER TO STRUCTURAL DRAWINGS.
- 4- INTERIOR DESIGN DRAWINGS MUST BE READ IN CONDUCTION WITH ELECTRO-MECHANICAL DRAWINGS.

KEY PLAN :

REMARKS :

- o ALL DIMENSIONS ARE METRIC (IN cm)
- o FGL = 10 000 (FIXED GROUND LEVEL) o FFL = FINISHED FLOOR LEVEL o TOC = TOP OF CONCRETE o FPL = FINISHED PAVEMENT LEVEL. o FRL = FINISHED ROAD LEVEL. o TOPR = TOP OF PARAPET

مرحلة توزيع المساحات

مرحلة تصميم الديكور

مرحلة المخططات

لماذا يُعد تصميمنا استثماراً وليس تكلفة؟ 💰

المخطط الهندسي ليس مجرد رسمة، بل هو سلاحك المالي الأقوى لتحكم كامل في ميزانيتك:

- قوة التفاوض (نافس بالأسعار): بامتلاكك مخططات تنفيذية دقيقة (كهرباء، سباكة، وتوزيع أرضيات)، لن تضطر للقبول بأول سعر. يمكنك إرسال المخطط لأكثر من "صناعي" ومقاول للحصول على عروض أسعار منافسة بناءً على أرقام محددة، وليس تقديرات عشوائية تزيد من التكلفة.
- صفر أخطاء (وداعاً للعشوائية): المخطط يقطع الطريق على أي اجتهاد بشري خاطئ من العمال. التنفيذ يتم من المرة الأولى بدقة، مما يحميك من "الهدم وإعادة الشغل" الذي يستنزف ميزانيتك ووقتك.
- شراء بالقطعة (دقة المواد): ستحصل على جداول كميات دقيقة لكل متر بلاط، باركيه، أو جالون دهان. ستشتري ما تحتاجه مساحتك بالضبط دون هدر أي مواد أو دفع مبالغ في "فائض" لا تحتاجه.
- الخلاصة: المبلغ الذي تدفعه في المخطط الهندسي الآن، هو "توفير حقيقي" ستلمسه في جيبك عند شراء المواد والتعاقد مع الصناعة.
